PROFILE

Computer Science and Data Science undergraduate with a strong academic record (CGPA: 9.01) and knowledge of Python, C++, SQL, MySQL, object-oriented programming, and data analysis. Experienced in developing academic projects involving machine learning, database management, and web technologies. Interested in applying programming, analytical thinking, problem-solving, and software development skills in an entry-level technology role.

EDUCATION

B.Tech in CSE (Data Science): D. Y. Patil Agriculture & Technical University, Talasande
CGPA: 9.01 *Aug 2024 – May 2027*

Diploma in Computer Science: Dr. Bapuji Salunkhe Institute of Engineering & Technology, Kolhapur
Percentage: 83.66% *Jun 2021 – Mar 2024*

10th Standard — Symbolic International School, CBSE Pattern
Percentage: 75% ***Mar 2021***

TECHNICAL SKILLS

- **Programming Languages:** Python, C++, SQL, R
- **Computer Science Fundamentals:** Object-Oriented Programming (OOP), DBMS, Data Structures and Algorithms, Operating Systems
- **Database Management:** MySQL, SQL Queries, Joins, CRUD Operations
- **Software Development:** Debugging, Problem-Solving, Basic Software Testing
- **Data Science:** Data Cleaning, EDA, Regression, Classification, Model Evaluation
- **Tools:** Git, GitHub, Jupyter Notebook, VS Code, MySQL Workbench, Excel, Power BI
- **Web Technologies:** HTML, CSS, PHP

PROJECTS

- **AI-Powered Google Sheets Email Automation** GitHub
  - Built an n8n workflow integrating Google Sheets, an AI Agent, and Gmail for automated data analysis and email report generation.
  - Implemented customer summaries, city-wise grouping, and HTML-formatted report delivery using workflow automation and prompt engineering.
- **Netflix Analytics Dashboard** GitHub
  - Developed a Python and Streamlit dashboard to explore Netflix content by genre, country, rating, and release year.
  - Worked on dataset cleaning, data processing, interactive visualizations, and dashboard functionality.
- **IoT-Based Drink-and-Drive Detection System** GitHub
  - Developed an IoT-based detection system using ESP32, an MQ-2 sensor, GPS, and machine learning.
  - Implemented alcohol detection and vehicle ignition control with real-time monitoring.

AWARDS

- Merit Scholarship — Sou. Shantadevi Scholarship, awarded for outstanding academic performance in the annual examination

CERTIFICATIONS & COURSES

- **Microsoft Certified: Power Platform Fundamentals (PL-900)** – Microsoft / Ethnotech Academy (2026)
- **Python for Data Science** – IBM (Dec 2025)
- **Machine Learning Using Python** – Simplilearn SkillUp (Oct 2025)
- **Data Analytics Job Simulation** – Deloitte (Jan 2026)
- **Data Analyst Skill Certification** – OneRoadmap
- **Get Started with Databricks for Generative AI** – Simplilearn x Databricks (Jun 2026)

INTERNSHIP & TRAINING

- **Internship – Qweez Technology, Kolhapur** *July 2026 – Present*
  - Gaining practical industry experience through technical tasks and hands-on learning.
- **Diploma Training – Domain Computers** *June 2023 – July 2023*
  - Completed python training to strengthen practical technical knowledge and skills.
